Warriors In Need (WIN): Supporting Veterans' Transition from Service to Civilian Success

Van Nuys/Burbank, CA – *Warriors In Need* (WIN) is on a mission to empower veterans with the skills, community, and resources they need to transition from military service to meaningful civilian careers. Founded by Marine Veteran Ben Ingram, WIN is dedicated to assisting veterans by providing structured paths to success through mentorship, career-focused training, and a strong support network.

Our Mission: A Clear Path for Veterans

WIN's mission is simple but powerful: serve those who have served by offering veterans clear career opportunities, mentorship, and resources to confront the unique challenges of returning to civilian life. WIN works with leading partners, including Standard Aero and Snap-on Tools, to create on-the-job training programs and ensure veterans have access to the tools needed for success. By providing structure and a community of support, WIN helps veterans build fulfilling post-service careers and stable lives.

Robert's Story: A WIN Milestone This week, WIN celebrates a milestone as Robert, a dedicated veteran and the first recruit in WIN's Academy, graduates. Robert joined WIN facing the same challenges many veterans encounter—difficulty transitioning, lack of clear direction, and a need for community. Through the WIN Partnership, Robert received hands-on training, career support, and mentorship, which equipped him for a meaningful role in aviation maintenance. His journey to graduation is a testament to WIN's mission of empowering veterans to achieve success.

Special Event: Bid to WIN a P-51 Mustang Ride for Our Veterans

In an exciting initiative, WIN is hosting a once-in-a-lifetime opportunity—a P-51 Mustang ride auction, now open to all supporters of our veteran community. This auction isn't just about thrills; it's about victory for our veterans. What began as a fundraiser has become a fierce mission, battling homelessness and mental health struggles for our nation's heroes. The auction closes at 1900 hours (7:00pm) on November 7, and every bid contributes to

WIN's mission, fueling the transition journeys of veterans like Robert to careers in aviation and stable civilian lives.

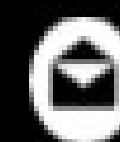

Join Us in Supporting Our Veterans Be part of the mission—whether through donations, partnerships, or bidding in the P-51 Mustang ride auction. Contributions to WIN go directly toward equipping veterans with essential resources, training, and the community support they need to thrive. **For more information or to place your bid, visit warriorsinneed.com.**
